Neighbourhood Support Fund

This is to certify that

Face to Face Connection

at Community Youth Provisions Association

worked with 146 young people
and successfully moved them into positive destinations.

The Neighbourhood Support Fund (NSF) was a £90 million programme running for six years from 2000 to 2006, funded through the Department for Education and Skills (DfES). NSF enabled voluntary and community organisations across England to work with young people aged 13-19 who were disengaged from education, employment and training provision and/or who were at risk of long-term social exclusion.
