

Autumn Newz

AGM & Awards Evening

Anthony Martin & his very proud Mother

Anthony Martin made his mother extremely proud as he received his certificates of achievements at the CYPA Annual AGM and Presentation Evening. Anthony is one of the students on the Face To Face Connections Project who despite having a difficult time with his secondary education has shown by the end of year 10 that he can achieve.

Anthony has attained his certification through OCR in **Numeracy and Literacy at Level 1** also **ITC Level 1** where he achieved **11 topic passes**.

Paul Roye CYPA Chairman presents a new Dell to Anthony Martin.

Anthony also received a pass in **Literacy at Level 2 (GCSE D)** which is an excellent achievement for a 15 year old. To mark this significant achievement and further encourage Anthony to continue, he was presented with a brand new Dell by the CYPA Chairman Paul Roye. Anthony was really excited and said that he wanted to go to College in another year to do a National Diploma in ICT. This requires 5 GCSEs at A-C or the equivalent.

FACE 2 FACE CONNECTIONS

Face To Face young people show off their certificates. At the AGM & Presentation Evening. The young people present are just a sample of those who have had benefit from the services of the project during the academic year. We are now moving through the new academic year and we are hoping for even more from those young people who have continued with us as well as those who will join us throughout the year.

Volunteer Award goes to CYPA Trustee

Janice Smith long term trustee of the Community Youth Provisions Association was recently awarded a Southwark Star for her voluntary services to the community. Janice was presented with her award at a ceremony held at the Glaziers Hall.

The project had a visit during the Autumn term from the Head of the Learning support Unit at Kingsdale School. He had with him an inspector who we were informed was looking into the external services used by the school and assessing their suitability. We had Ben Brown (Yr 11) on hand to explain what he thought of the project. Ben stated that the staff at the project had helped him to gain a better focus on his education and he had now started to achieve.
