

## CASE STUDY

NAME: **Proscovia Ayella**

AGE: 16

### **Why was I referred to the Face 2 Face Project?**

I arrived from Uganda on 4<sup>th</sup> January, where I had been living since I was born. I was born in the city of Kampala on 9<sup>th</sup> October and did my schooling there. My dad had travelled to England and then he decided that I would join him. When I arrived I was very bored at home and we went to the education dept to register for a place at school. I was told that it was too late for me to start this academic year and next year I would need to register for college because I would be too old for school. I really wanted to do something and my dad found out about connexions. When we went there they referred me to Face 2 Face. I was very happy when Junior told me that he could offer me a place to do IT, Numeracy & Literacy throughout the week.

### **Have you benefited from attending Face 2 Face – If yes how? If No, Why?**

It has taken a little while for me to adjust to the different topics although I am learning and I think I will get better as time goes on. I also wanted to do other things like work and earn some money. I did not know how to find a job and I got help from Clare at Face 2 Face by searching the **Job Vacancies** board at the centre. I also had help with searching the Internet for vacancies and Clare then helped me with completing the applications as well. I did **applications for college** in September and work in the Summer. I have had benefit from attending because being new to this country I did not know how to look for work and make applications I am now able to help myself in this way and learning to use computers has helped me as well.

### **Has attending Face 2 Face helped your career aspirations? If yes how? If no, why?**

I believe that I would enjoy caring for people and I would like to become a doctor. I have been helped at Face 2 Face by having careers guidance sessions to explain the steps involved. I will go to college first for a couple of years and then onto University. I have been encouraged by passing my **New CLAIT Level One in IT** (A total of eleven topics inc; Using A Computer, Wordprocessing, Electronic Communications, Spreadsheets, Databases, Graphs & Charts, BBC Webwise, Desktop Publishing, Computer Art, Web Pages and Presentation Graphics). I have also taken and successfully passed my **Numeracy and Literacy** exams at Entry Level 3 and I have made applications to **Westminster, Southwark and Kingston College** to do a Pathfinder GCSE Programme.
